SYNTHETIC DEMO DATA - RFP: TMT Reinforcement Steel
Issued by: Example Infrastructure Project (fictional)
All organizations, prices, dates, grades, and requirements are fictional.

1. Requirement
Supply 500 MT of TMT reinforcement bars, grade Fe 500D, to the project site in Pune, Maharashtra. Required completion date: 30 November 2026.
State the product standard and identify any deviations.

2. Quality documentation
Submit a Mill Test Certificate (MTC) for each supplied heat or batch, showing traceable heat references and the test results required by the applicable standard.
Certificate presence does not establish independent authenticity.

3. Delivery
State quantity availability, first delivery date, completion date, delivery phases, and any conditions affecting delivery to the project site.

4. Commercial quotation

Provide currency, basic rate per MT, freight, taxes, loading/unloading, other charges, total quoted amount, delivery basis, quote validity, payment terms, and exclusions. Do not omit or assume any charge. Identify whether the total is delivered or ex-works.

5. Supplier information

Provide relevant steel-supply experience, project references, warranty/replacement support, and all required quotation documents.

Mandatory conditions for this illustrative example: offer Fe 500D grade; offer at least 500 MT; submit an MTC. Human reviewers must verify every gate and all evidence. Lowest-total-price scoring is illustrative only and requires a human comparability check.
